WE'RE FOR AMERICA/AMERICANS!

A CALIFORNIA millionaire mine owner offers to pay BRYAN'S expenses in educating the people on the money question. But who is to educate BRYAN?

ALL the Type-setting Machines used in THE LEDGER establishment have been instructed to use a cap "G" and a cap "D" when putting the words "Gold Democrat" in type. This was done because the Gold Democrats are capital fellows.

THE HON. MARK HANNA pays the following tribute to the Gold Democrats:

"They were a very important factor in the election, and I don't think any man appreciates their services more than I do. They worked just as hard for the same results. There were no breaks in the line anywhere, and they were loyal from the outset. The value of their services cannot be overestimated."

BRYAN attended a farmers picnic in Orleans county, N. Y., during the campaign and addressed an audience of 25,000 persons. The election returns show that Orleans county gave a plurality for McKINLEY 308 larger than the one given to the Republican candidate last year. So much for the practical effect of a boy orator's speechifying.

On the 26th of September THE LEDGER said the city of Philadelphia would give 50,000 majority for McKINLEY. This paper has always been extremely conservative in its statements. The official returns place McKINLEY's plurality in the city of Philadelphia at 113,774 and in the state of Pennsylvania it was 301,906. Compare these figures with some of the predictions of the Popocratic press.

THE Maysville correspondent of The Courier-Journal refers to the phenomenal large increase of the vote in Lewis county at the recent election, with the evident purpose of casting suspicion on the big majorities received by Major McKINLEY and Judge PUGH. His figures show that McKINLEY's vote was an increase of just 324 over BRADLEY'S, while BRYAN'S increase over HARDIN was 398—the Democratic increase being the greatest by 74. Well, it might be a good idea to find out where all those Popocrats came from.

THE LEDGER can scarcely believe that Editor THOMPSON indulges such corrigible sentiments as are contained in the following excerpt from The Bracken Chronicle:

"Senator LINDSEY seems to have read the handwriting on the wall correctly. He, with fifteen other prominent men of his Ward, claim to have cast the 3 votes given PALMER in their Precinct, and on the [?] of this are now trying to scramble back into the Democratic ranks. JESUS CHRIST could not be elected to the Legislature on the Democratic ticket in Bracken county if it was known that he favored one of that stripe."

Editor THOMPSON will oblige by sending a diagram of the [?]. But he can never explain away the profanation of his Savior's name in the concluding sentences.

THE LEDGER'S PROPHECIES FULFILLED.

McKinley's Election Has Restored Confidence and Given a Big Boom to Business.

"Advance Agent of Prosperity."

THE LEDGER was insistent throughout the late campaign that the election of McKINLEY meant the restoration of Confidence and the immediate resumption of Manufacturing and Commercial Business throughout the country.

There were those who contended that the very opposite would be the case.

It is useless now to argue the question; it is settled by the results;—and that our readers may see who was right THE LEDGER will give, from day to day, a partial list of the industries that are reviving under the assurance that the incoming Administration will be friendly to American interests.

WASHINGTON, D. C., O.
The beneficial effects of McKinley's election are not confined to the cities, nor to the factories and workshops. Dr. J. F. Dennis of this city has been offered \$500 more for a farm than he could get the day before election. J. L. Rothrock, one of the most extensive wool buyers in Ohio, has on hand 80,000 pounds of wool. The day before election he could not get an offer on his wool, not even at the then market price. Yesterday he was offered four cents more on the pound for it than last Monday's market quotations. The aggregate of the advance on this one batch of wool is \$3,300.

The Portsmouth Wheel Company of this city has received orders since the election for 200,000 wheels, and the factory is now resuming full force and on full time. They have enough orders now on hand to keep the factory running all winter.

RICHMOND, IND.
The election of McKinley has already resulted in a considerable improvement in business. Trade has quickened, a number of the factories have started up and more will start up on next Monday. Another benefit has also come from Republican success. Last August the City Council passed an ordinance authorizing the issuing of \$5,000 of improvement bonds. They were put on the market the 1st of September, but they could not be sold. There was only one offer for them, and that was too low to be accepted. Since the election a very favorable offer has been made.

KOKOMO, IND.
The beneficial results of McKinley's election are already apparent in this city. The banks are loaning money to all wanting it, and putting out large quantities of gold. Manufacturers have received more orders for goods in the past two days than all that came in during the past two months. Yesterday City Treasurer Markland received a number of offers to purchase city and school bonds that were looked in vain for during the summer to continue work on partially completed school buildings.

ROCKFORD, ILL.
Among the companies here to put on additional hands are the Co-operative Furniture Company, Rockford Frame and Fixture Company, Spafford Mill Company, Logerson Milling Machine Company, Illinois Chair Company, Rockford Foundry Company, Standard Furniture Company and Savage & Love.

EVANSVILLE, IND.
The following firms, which have been running about half their force for several months, will on Monday begin working at their full capacity: Blount Plow Works, 100 men; Hellam Chain Works, 100 men; Crown Pottery, 175 men; Evansville Woolen Mill, 140 men; Evansville Coffin Works, 80 men. The Crown Pottery employees celebrated McKinley's election tonight by a big jubilee at the works.

PORTSMOUTH, O.
The Excelsior Shoe Company will resume full time Monday, giving employment to 600 people. The Portsmouth Stove and Range Works also starts on a large list of orders that were conditional on McKinley's election. The Scioto Shoe Company, after awaiting the result of the election, completed its organization today, and work has commenced on samples.

RICHMOND, IND.
Last September the projectors of the Indiana Mineral Railroad, from Dayton, O., to St. Louis, via Richmond and Terre Haute, discontinued work to await the result of the election, stating that, unless Sound Money triumphed, the line would no doubt be abandoned. Now that the question is settled one of the men interested states that work will certainly begin within the coming year.

WARREN, O.
The working force of the Warren City Boiler Works will be increased fifty men by orders received today for grain elevators, which will be erected in the West era District. The orders were all held in abeyance pending the election results.

LAFAYETTE, IND.
The Lafayette Carpet Mills are preparing to resume at once to fill large orders contingent on McKinley's election. The Lafayette Hosiery Mills will also be started for like reasons, giving employment to several hundred hands.

SHELBY, O.
The Shelby Steel Tube Works, which has employed only 300 men all summer, has hired 100 more since the election. The indications are that 1,000 will be at work in this shop in thirty days. The Shelby Cycle Works is increasing its force since election. It is expected that the entire force of 400 men will be on in sixty days.

DURHAM, N. C.
Gold is circulating freely in business circles here. Jobbing houses have sent out all their commercial travelers, and factories are arranging for an expected boom in business.

BENTON HARBOR, MICH.
H. D. Deam, promoter of the Benton Harbor and Eastern Transit Railway, which is to reach lake frontage here through a mile tunnel under this city, is closing arrangements today to complete the line.

GREENSBURG, IND.
The banks at this place the past two days have been paying the pensioners gold. Many of the pensioners took the yellow metal and departed joyously, saying that the era of good times was beginning to dawn.

ROCKFORD, ILL.
The election of McKinley has already had a marked effect on business interests in Rockford. Factories have in the main been idle or running on part time since 1893. The Rockford Manufacturing Company, which has been shut down all summer, will start up with several hundred hands, and the Trahern Pump Company will do likewise. The Emerson Manufacturing Company, one of the largest concerns in the city, put on 150 men the day after election.

CHATTANOOGA, TENN.
Every line of business in the Chattanooga District evinces signs of improvement. Jobbers and manufacturing concerns have started salesmen again on the road, and a number of the latter have placed big orders for raw material. One boiler firm orders 500,000 feet of boiler tube and 50 tons of steel. The Lookout Sewer Pipe Works received a rush order for six cars of pipe. Furnaces and rolling mills throughout the District will resume. H. S. Chamberlain, one of the largest iron men in this section, says: "There is a more hopeful feeling among iron men, and a firmer and more active market than for months. Jobbers are rushed with orders, consequent on the run down state of country merchants' stock."

Among new enterprises are a plant to manufacture soapstone pencils and a Pork-packing Company, besides innumerable additions in the way of new buildings and increased labor force. The Chattanooga Brewing Company will begin the erection of a \$30,000 addition to the bottling department. The Keyes Manufacturing Company is preparing to enlarge, and will probably be in new quarters inside of twelve months. The marble industry in East Tennessee has been wonderfully quickened and works shut down have resumed. Everything wears a hopeful face, and a great revulsion of feeling against Bryanism is taking place. A deal of hoarded gold and gold certificates is pouring into banks, which are paying checks in gold. A banker and cotton factor of Gadsden, Ala., a veritable Free-silver crank, writes that cotton began to move the day after election, and is now selling rapidly. The greatest boon is the prospect of the completion of the Tennessee Central Railroad to the Tennessee oil fields.

PHILADELPHIA.
Philadelphia will contribute more to her share to the evidences rapidly accumulating of the returning prosperity that is following McKINLEY'S election. Tomorrow (Monday) morning more than 100,000 men in this city and its suburbs will take up their tools for the first time for several months. At the Manufacturers' Club, which is a social rendezvous for the manufacturers of Pennsylvania, New Jersey and Delaware, and at the Bourse, which is the business rendezvous of the wholesale dealers, manufacturers, contractors, commission men, freight agents of transportation companies and country buyers, it is said that the close of this month will see more activity in industrial and commercial circles than has been enjoyed since the panic of 1893.

Statisticians are at work making an enumeration of the contracts that were contingent upon McKINLEY'S election, and the value of the material and labor involved, so that it may furnish an object lesson for the benefit of those who desire to continue the controversy over the finances still further. They already have information of contracts involving many millions, upon which work has been commenced already, or will be the coming week.

The wholesale man on the Bourse reports that they are sending out drummers as fast as they can get ready, and that there has been an unexpected increase in the number of mail orders from every direction since the result of the election was known. Freight agents report active demand for transportation facilities, which is a most favorable sign. Manufacturers say that merchants in all lines of goods and in all parts of the country have let their stocks run down to the very lowest degree possible without damaging their trade; that customers have been economizing and postponing necessary purchases, which will now be made, and that all these conditions and the distribution of money among workingmen who have been unemployed for months will make retail business brisker than it has been for three years.

Everybody is cheerful and confident, and that fact alone is a stimulant that gives a tone to financial and commercial circles that has not been felt for a long time.

An organized movement is on foot in New York to change the National election date from November to some time in the summer.

The leaf of the cocoon is nearly 30 feet in length. A single leaf of the parasol magnolia of Ceylon affords shade for fifteen or twenty persons.

If the armies of Europe should march at an eight mile gait, five abreast, fifteen inches apart, it would require nine and one-half days for them to pass a given point.

How to Cure Bilious Colic.
I suffered for weeks with colic and pains in my stomach, caused by biliousness, and had to take medicine all the while until I used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured me. I have since recommended it to a good many people. Mrs. F. BUTLER, Fairhaven, Conn. Persons subject to bilious colic can ward off the attack by taking this remedy as soon as the first symptoms appear. Sold by J. James Wood, Druggist.
